

SCHOOL CLASSROOM LEARNING ASSISTANCE BY TOA

Wall Mount Infrared Wireless Microphone System

Helping children do better in school is one of the goals of TOA's Infrared Wireless Microphone System. This system provides easy, interactive communication stimulating the students and improving their understanding of the spoken word.

This system is ideal for wall mount applications, is secure, and can be installed in adjacent rooms simultaneously without interference.

AMPLIFIER

BG-M Series: BG-2035

- Compact Five Channel Mixer/Amplifier for paging, BGM/FGM distribution, and music/messaging-on-hold
- All inputs/outputs have removable terminal blocks for quick and easy installation
- Phantom power (+24V DC) incorporated for MIC input
- 3 line inputs, with Line 1 line/tel switchable, while Line 2 and 3 are equipped with RCA pin jacks
- Module slot accepts optional 900 series plug-in modules for custom system configurations
- 2-channel broadcast capability together with zone 2 expansion capability (when used with BA-200 Series)
- Any of 5 inputs assignable to MOH/Zone 2 output
- Rear panel-mounted DIP switches allow easy configuring of settings
- Tamper-proof, front-panel bass and treble controls are recessed to protect their settings
- Auto/manual mute function with adjustable muting sensitivity
- Incorporates remote volume control connection

WIDE-DISPERSION BOX SPEAKER

F-1300WT

- The F Series Wide-dispersion box speakers are versatile speakers designed to provide quality sound over a wide range of frequency response and power handling
- These speakers provide smooth sound coverage, ideal for a classroom setting

INFRARED WIRELESS MICROPHONE SYSTEM

IR-300M, IR-200M, IR-702T, IR-500R, IR-200BC, IR-200BT-2

- Incorporates a range of communication enhancing features for confidentiality and interference-free communications
- Sensitive matters won't leave the room with IR signals
- IR systems can be used in adjacent rooms simultaneously without interference
- Hand-held or hands-free microphone designed for stable voice transmission
- Infrared Wireless Tuner comes with built-in 2 channel fixed-frequency tuner
- Enables installation of up to 4 infrared light receptors per unit
- Two line outputs, one with a Mix output switch allowing output of mixed voice from channel A and B
- Infrared Wireless Distributor equipped with 4 receiver mixing outputs and 2 distribution outputs
- Receptors Wall-mount receptors (receiver) and ceiling-mount receptor
- Equipped with power indicator LED
- Battery charger is capable of charging up to 2 microphones at one time.

WIDE-DISPERSION BOX SPEAKER F-1300WT

- Compact box speaker for voice distribution, BGM, paging
- Excellent sound quality
- 70/100 V
- Octagonal horn design for smooth coverage
- Extruded cabinet design improves low frequency performance
- Individual protection circuit on each component
- Screwdriver-adjustable power taps
- Paintable grille and enclosure
- Wall/ceiling-mount bracket included

INFRARED WIRELESS MICROPHONE SYSTEM

IR-200M / IR-300M - Infrared Microphone

- IR-200M - hand-held Mic. designed for stable voice transmission, with emitters that are designed to prevent accidental blocked during use
- IR-300M - hands-free Mic. has a neck-suspended design, with a lightweight body
- Infrared light emission intensity adjustable at 2 levels
- Two selectable channel frequencies
- Employs an electret condenser microphone unit
- 2 Mics per room maximum

IR-200BC - Battery Charger

- Capable of charging up to 2 microphones at one time (both hand-held and hands-free types)
- Charge status indicator

IR-702T - Infrared Wireless Tuner

- Comes with built-in 2 channel fixed-frequency tuner
- Enables installation of up to 4 infrared light receptors per unit
- Two line outputs, one with a MIX output switch allowing output of mixed voices from channel A and B

IR-700D - Infrared Wireless Distributor

- Equipped with 4 receiver mixing outputs and 2 distribution outputs
- By using the IR-700D in conjunction with IR-702T and YW-1022Y / YW-1024Y, a system with up to 16 infrared receptors can be configured

IR-500R / IR-510R / IR-520R - Receptors

- IR-500R - Wall-Mount Receptors (Receiver) - reception approx. 15m line of sight
- IR-510R - Ceiling-Mount Receptor - covers practical radius of approx. 8m line of sight
- IR-520R - Wall-Mount Receptor - reception approx. 15m line of sight
- Supplied with mounting brackets
- Equipped with power indicator LED
