

Willow Park Middle School, Calgary, AB

Willow Park is a middle school that focuses on teaching art. The school offers students courses in art, drama, media arts, and music.

Products Used

- IR-800KIT3: IR Classroom System Kit [KIT #3]

Purpose

Willow Park needed to install an audio system to project the voices of both the teachers and students clearly throughout the classrooms. This installation was crucial to enhance the students' learning by enabling them to have greater focus and less noise distraction in class.

Challenge

Willow Park had typical classroom issues such as feedback, level control, usability and RF issues with crosstalk.

Solution

The school had previously tried several options that were met with failure; however, TOA Canada was able to solve all of their problems with the IR-800. The IR-800 produced much higher audio quality, provided more inputs and enabled teachers to have the ability to easily switch from one room to another.

Feedback

The staff and students are extremely happy with the quality and usability of TOA's IR-800.

TOA's IR-800 is being used at a higher rate across the entire country.

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
