

INFRARED WIRELESS MICROPHONE SYSTEM FOR CLASSROOMS

Simple and Smart Teaching
5 Year Warranty

TOA innovative all-in-one solution

The Worlds first ceiling-speaker with a built-in infrared (IR) receiver and amplifier to enhance educational performance and simplify classroom installation.

Simple and Smart Teaching

Intelligible speech, transmitted by an IR wireless microphone system, helps to boost the achievement of kids in a classroom environment.

IR integrated wide-dispersion ceiling speaker distributes uniform sound quality throughout the classroom.

TOA's light-weight IR wireless microphones reduce the physical fatigue of teachers during classes.

IR Wireless Tuner: IR-802T; IR Integrated Speaker: IR-820SP;
IR Wireless Microphones: IR-200M (Hand-held), IR-300M (Hands-free)

System Comparison: Conventional Competitor System vs. The New Innovative IR Wireless System by TOA

Conventional

Complex and troublesome

Configuration	Speaker x 4
	Receiver x 1
	IR wireless tuner x 1
	Amplifier x 1
	IR wireless microphone x 1

Wiring	Speaker cable x 4
	Coaxial cable x 1
	Audio cable x 1

Performance *Uneven sound quality. Installation time is longer because there are four speakers and extra wiring.*

TOA

Simple and easy

Configuration	IR integrated speaker x 1
	IR wireless tuner x 1
	IR wireless microphone x 1

Wiring	CAT-5 (STP) x 1
---------------	-----------------

Performance *Uniform sound quality throughout the classroom through one speaker. Quick and easy installation using one CAT-5 cable.*
