

Aviation Reproductions Inc., Mississauga, ON

Aviation Reproductions Inc. creates a training facility for flight attendants to learn how effectively perform their job, especially in emergency situations. They are one of five companies worldwide that manufactures Cabin Trainers.

Products Used

- M-9000MK2

Purpose

The company had communication requirements that involved paging, handset to handset and handset to cabin speaker communication within the facility

Challenge

TOA had to find equipment flexible enough to work with the existing 6 Ohm transformer cabin speakers to power the speakers on the handsets.

Solution

TOA, using their knowledge and available technology, designed a system solution that included the M-9000 mixer/matrix to drive the line signal

Feedback

“When shopping for a solution to our communications system, TOA opened their doors to us. They helped us to define a solution for our specific needs.” explained management. “We wouldn’t have been able to design the audio system without TOA’s technical experience and knowledge.”

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area. These facilities have a reputation for precision design and fabrication, resulting in a proven track record of TOA product reliability.
