

Crescent Heights High School, Wahl-Harker Centre for the Performing Arts, Medicine Hat, AB

Crescent Heights High School is dedicated to learning and committed to community.

Products Used

- HX-7B Compact Line Array Speaker System
- FB-150B Subwoofer System

Purpose

With arts and performance as a key focus at Crescent Heights High School, it was time to upgrade their theatre sound system at the school and bring in a system that the students deserve while having the high quality sound during performances.

Challenge

Crescent Heights was already using TOA speakers that had become old and was causing some sound issues. The school told our team that the sound did not have enough gain, uneven sound and feedback problems.

Solution

Working with our technical team and the installer on sight TOA recommended our new and highly reliable HX-7B Compact Line Array Speaker System along with the FB-150 sub woofers. The entire system was re-tooled to work more efficiently. To be cost effective, the old speakers were used as stage monitors.

Feedback

The staff was very happy with the performance and that the original issues were eliminated. Audiences were also very excited with the new system and provided excellent feedback to the teachers and students.

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
