Products Used

- A-9120SM2 9000M2 Series: Amplifier
- A-903MK2: 8-Channel Mixer Power Amplifier
- F-122C: Wide-Dispersion Ceiling Speaker
- 5000 Series: UHF Wireless Microphone System

Purpose

The hotel needed to improve the PA and paging system in the hotel for the benefit of the guests. It was important to have clear sound and have the message better dispersed throughout the building.

Challenge

The Hilton Garden Inn in Ottawa, Ontario has been divided into a multi-zone facility with the lobby, hallways, restaurant, restrooms, and meetings rooms (four of the meeting rooms can be combined or separated). TOA's job was to ensure the paging and Public Address system's worked well throughout all areas and had all the functions needed for the hotel and was easy to use.

Solution

TOA used its technical expertise in outfitting the hotels with Public Address and Paging system. With our technical team behind the design and the use of multiple speakers and mixers, the resulting system worked tremendously.

Feedback

The hotel was very happy with the overall project and new sound clarity. The ability and ease of use of the system was also a key component of their contentment.

About TOA Canada Corporation
