

### Royal Military College of Canada, Kingston, ON

RMC, is the military college of the Canadian Armed Forces, and is a degree granting university training military officers. RMC was established in 1876 and is the only federal institution in Canada with degree-granting powers.

### Products Used

- N-8000MS: Multifunctional Master Station
- N-8000EX: IP Network Intercom Exchange
- YC-280: Wall Mount Bracket

### Purpose

It is important for the College to be able to communicate throughout its campus, including all the buildings on the grounds; therefore, an intercom system needed to be installed.

### Challenge

With a vast campus and multiple buildings, TOA was tasked with designing an intercom system that can be controlled from one place and maintain a secure door access throughout the campus.

## Solution

TOA designed and recommended the IP Intercom System to provide campus wide communications, from building to building and throughout the facility. A Network Intercom Exchange was installed with 11 Multifunctional Master Stations so that users can page, call and communicate.

## Feedback

The College was excited and satisfied with the new IP intercom system and was very satisfied with its performance.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area. These facilities have a reputation for precision design and fabrication, resulting in a proven track record of TOA product reliability.

TOA Canada Corporation was formed in 1990 as a complete sound solutions provider, specializing in commercial audio, including, public address, voice communications, voice evacuation and emergency paging requirements. TOA Canada offers complete solutions for all corporate and commercial audio communications and intercom security requirements.
