

## Beaver Valley Ski Club, Beaver Valley, ON

Beaver Valley Ski Club is a private skiing and snowboarding club located in Beaver Valley, Ontario, Canada. It is situated on a steep sided section of the Niagara Escarpment adjacent to the Bruce Trail. The Club has 28 trails, five snowparks including a championship snowboard/ski cross course, national level mogul and slopestyle runs, glade skiing and a steep, groomed ski bowl. Its Playground snowpark is one of the longest full-featured snowpark runs in Ontario. The Club has six lifts, two lodges and a ski and snowboard shop with rentals.

## Products Used

- HA-1010: Long Range Slim Array Speaker
- DA-250DH: Dual Power Amplifier

## Purpose

Beaver Valley Ski Club needed to install speakers on their ski hill to improve the sound quality of their announcements.

## Challenge

The speakers needed to cover a large outdoor area, roughly about 1 acre at the top and bottom of the ski hill. The speakers also had to be kept minimal, but still be able to produce intelligible audio.

## Solution

The HA-1010 Long Range Slim Array speakers were chosen to be installed. These speakers provided the sound and power required to be heard over long distances while being slim enough to be installed in areas that blend in with the ski club.

## Feedback

The client was extremely happy with the look and performance of the newly installed TOA equipment, so much so that they are now looking forward to upgrading other ski runs.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
