

## Central East Correctional Centre, Lindsay, ON

The Central East Correctional Centre is a medium/maximum security prison located in Lindsay, Ontario. The prison is managed by the Ministry of Community Safety and Correctional Services and holds up to 1184 prisoners.

## Products Used

- D-2008SP: Digital Mixing Processor Unit
- D-2000AD1: Mic/Line Input Module
- PM-660U: Paging Microphone

## Purpose

The Central East Correctional Centre needed to replace their old PA system that was failing. They needed a new reliable system with improved quality of communication throughout the facility.

## Challenge

Many of the zones within the facility had its paging cut off due to the previous system, so those zones needed to be reconnected to the functioning zones.

## Solution

Using our knowledge team and quality equipment, TOA recommended the D-2008SP digital mixing processor to connect all of the zones together for general public announcements.

## Feedback

Central East Correctional Centre was very happy with the end result and TOA's capability to resolve an issue that the previous manufacture could not.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
