

Exhibition Park, St. John, NB

Saint John Exhibition Park is a multi-purpose venue in Saint John's east side. They have the perfect mix of entertainment and fun. Whether you're enjoying the Saint John Ex in late August, shopping with out retail partners, or stopping in to play bingo with friends, they've got it all.

Products Used

- DA-250F: Multichannel Power Amplifier
- M-9000M2: 9000M2 Series Pre-Amplifier
- F-2000BT: Wide-dispersion Speaker System

Purpose

In order to produce great quality audio that's reliable, the multi-purpose building needed to update its 30-year-old audio system.

Challenge

A discrete system had to be created using the limited speaker locations while ensuring that the speakers are installed effectively, so that they are heard easily over the various noise levels.

Solution

TOA was able to supply the sound quality they required by installing the powerful F-2000 speakers and the controllable TOA amplifiers.

Feedback

The system sounds great and the built-in ambient noise control module acted as an automatic sound control, which the client appreciated very much.

About TOA Canada Corporation
