

## One York Street Parking Facility, Toronto, ON

One York Street is a class AAA building that houses 800,000 square feet of parking. One York is conveniently located in Toronto's South Core Business District, making it the perfect location for both work and outings.

## Products Used

- N-8000: IP Intercom System
- N-8600MS: IP master station, full feature, full time, full duplex
- 8 x - N-8640DS: IP door station, full duplex, 4 control outputs, external speaker output
- 5 x - Q-N8640DS Outdoor IP door station, full duplex, 4 control outputs, external speaker output, w/ boot

## Purpose

One York Street contacted TOA Canada to install an emergency intercom system in their parking garage, capable of producing clear intelligible audio for communication.

## Challenge

TOA had to work with the scope of the parking facility to design an IP intercom system that is reliable/durable, noticeable, and easy to use to ensure customers and staff can communicate when required.

## Solution

TOA took One York Street's requirements into consideration and carefully selected the N-8000 IP system to be installed in their parking facility. The intercom provides a direct connection to the master system and security personnel, making it an excellent addition to the blue light duress stations around the facility; therefore, keeping the customers safe and their minds at ease.

## Feedback

The staff and management at One York Street were extremely satisfied with the excellent performance of TOA's N-8000 IP intercom. The equipment is durable, easy to use and produces excellent audio quality.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
