

## Picaroons Brewery, Fredericton, NB

Located in Fredericton, New Brunswick, Picaroons brews British-style ales using malted barley, hops, Ringwood yeast and water.

## Products Used

- M-9000: Series Amplifier
- PE-304: Pendant Speakers
- FB-120: Subwoofer System
- DA-250FH: Multichannel Power Amplifier

## Purpose

Picaroons needed a sound system created for their brewery and pub area. The sound system had to be able to produce intelligible audio that can be heard over the daily noise that occurs. This is crucial to ensure that all communication and BGM (background music) can be clearly heard throughout.

## Challenge

TOA had to find the right equipment able to provide excellent coverage at a reasonable price. The building was harder to assess, due to its quirky design.

## Solution

TOA worked with its technical team and design software to find the proper equipment for the facility. TOA had also consulted with the installer to ensure that all of the equipment was positioned properly to maximize its effectiveness.

## Feedback

The client was very happy with the high-quality audio produced by their newly installed TOA system. It makes it creates a more enjoyable experience for both their customers and employees.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
