

## St. Johns Convention Center, St. Johns, NL

St. John's Convention Center is located in the heart of downtown. The convention center offers 47,000 square feet of divisible meeting space, catering, security, rentals and much more.

## Products Used

- F-122C: Wide-Dispersion Ceiling Speaker
- D-2000: Series Digital Mixing System
- DA-250FH: Multichannel Power Amplifier

## Purpose

St. John's Convention Center contacted TOA Canada to fully revamp the building's speakers and paging systems. They required a new system that minimized reverberation and maximized clarity.

## Challenge

TOA had to work with powerful DSP and produce clear speakers for a multi-use building.

## Solution

TOA worked with the consultant and audio systems installer to devise and execute the absolute best system and equipment to meet all conditions.

## Feedback

St. John's Convention Center was very satisfied with the system, sound quality, and overall product performance.

## About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area. These facilities have a reputation for precision design and fabrication, resulting in a proven track record of TOA product reliability.

TOA Canada Corporation was formed in 1990 as a complete sound solutions provider, specializing in commercial audio, including, public address, voice communications, voice evacuation and emergency paging requirements.
