

Windsor Park Library, Winnipeg, MB

The library offers items to borrow for all ages including books, magazines, graphic novels, large print books, movies, music, audiobooks, English as an Additional Language (EAL), adult learning collections, aboriginal resources, and more.

Products Used

- F-122CU2 Wide-Dispersion Ceiling Speaker
- DA-250F Multichannel Power Amplifier
- M-9000M2 Amplifier

Purpose

The newly renovated library needed to update their paging system and the sound quality of their multi-purpose rooms in the building. They found the functionality of the old paging system did not have many of the abilities they needed. The multi-purpose room also needed speakers with better sound quality and clarity.

Challenge

There were very little challenges with this project. The main issue was ensuring the sound in the multi-purpose rooms were covered with clear sound.

Solution

A quick EASE design by our tech team quickly assessed the multi-purpose room and the proper solution was created to ensure the sound environment was what the library needed. The paging system was an overhaul so it was an easy switch of equipment. TOA equipment is very adaptable to integrating with previous systems and other brands.

Feedback

TOA equipment was the right choice for this project and the Winnipeg Library was very satisfied with the quick installation and resulting functionality.

About TOA Canada Corporation

TOA Corporation was founded in Kobe, Japan over 80 years ago. TOA operates in over 100 countries worldwide, with manufacturing facilities found in nearly every major market area.
