

## DA-150EH A&E

---

The DA-150EH is a multichannel amplifier. It shall include 8 channels of 150 W each. The amplifier shall operate within a 100 V / 70 V line high impedance. The device shall have a Class D amplifier system. The amplifier will deliver 150 W x 8 channel using a switching power supply. The device shall have a protection circuit – short circuit, open circuit, thermal, excessive input, ultrasound, and RF. The unit will be cooled by forced cooling. The device shall have a frequency response of 20 Hz – 20 kHz. It shall have LED indicators for audio input, audio output and status. It shall be powered by 100 - 120 V AC, 50 / 60 Hz and operate on a power consumption of 1000 W. The device size shall be 483 W x 44 H x 360 D mm (19" W x 1.7" H x 14.2" D). It shall weight 7.3kg (16.1 lbs) and have a finish of Panel: Aluminium, black, alumite Case: plated steel sheet.

The multichannel amplifier shall be TOA model DA-150EH
