

TOA CANADA CORPORATION

We supply sound, not equipment

About TOA

TOA Corporation was founded in Kobe, Japan in 1934 and is the leading commercial audio, professional sound, and security product manufacturer in the world.

TOA products range from digital amplifiers and speakers, to mixers, wireless microphone systems and digital processors used in sound reinforcement, to integrated VOIP intercom and emergency paging and voice evacuation systems for security and communications.

TOA Canada Corporation was formed in 1990 as a complete sound solutions provider, specializing in commercial audio, including, public address, voice communications, voice evacuation and emergency paging requirements. TOA Canada Corporation offers complete solutions for all corporate and commercial audio communications and intercom requirements.

TOA Canada Corporation provides regional sales, technical support and warehousing from one convenient location.

Peace of Mind - Security & Safety -

TOA uses its own technology to provide security system such as emergency paging, broadcast systems, public announcements and access security that protects people's lives and lifestyles, and contributes to improved safety and greater peace-of-mind. Evacuation guidance and security systems demonstrate their true value in emergency situations. Such solid reliability can only be achieved through skillful application of the most advanced technology.

Trust - Information & Communication -

TOA uses a network voice systems to combine technologies for Seeing, Hearing, and Communicating in unique and original ways to create information communication systems that are ever richer in amenity and convenience. Applying audio technology toward improved practicality and functionality is the key to developing information communication systems capable of matching the pace of accelerating progress.

Moving - Professional Audio -

TOA offers audio equipment on par with the strictest standards of audio professionals, helping to make spaces more dramatic and pleasant, and contributing to the emotional movement and shared experience of the people who use them. Maximizing the emotional effects of sound in all kinds of spaces makes possible the creation of sound that is richly elegant, sensitively delicate or boldly audacious, as needed.
